Plant Tissue (Chemistry) Testing Now Available at Soil Foodweb Canada

Soil Foodweb Canada is pleased to announce that effective immediately we are offering Plant Tissue (Chemistry) testing along with our Plant Surface (Biology) testing. Each test is \$50, or order them together for only \$80! Please see our submission form at www.soilfoodweb.ca/SFC-Submission.pdf for further details and how to send a sample.

Our Plant Tissue test will inform you of insufficient, adequate or abundant levels of the following nutrients: **Nitrogen, Phosphorus, Potassium, Iron, Zinc, Copper, Manganese and Boron**, as well as the **^oBrix (% Sucrose/Sugar)**. In the future we also hope to offer Calcium, but we have yet to find an effective testing method and are therefore still conducting more research. Any questions please call us anytime: 403-485-6981.

Please DO NOT Send Samples Via Greyhound

Regretfully, Greyhound Courier has abruptly discontinued service to Vulcan, where Soil Foodweb Canada is located. All packages are being rerouted to High River, 45 minutes away. Any packages sent via Greyhound will either be rejected or subject to a pick-up fee, if you wish us to pick it up. Greyhound has informed us that they are working on resuming service to Vulcan. We will inform you immediately if/when this takes place. We sincerely apologize for any inconvenience.

Welcome Back Christine!

As many of you already know, our lab technician Christine George is back from maternity leave. Christine is working in the afternoons, from 2pm to 6pm, MST. Not only will Christine be helping William, our other lab technician, whenever he needs assistance, she will also be doing research for us. Christine is also making herself available to teach microscope courses. To contact Christine call 403-485-6981 or email: research@soilfoodweb.ca.

Right: Looks like Christine has her hands full, with youngest son Xavier (left) and older boy Hayden (right).

SOIL FOODWEB CANADA COURSES

If you are part of a group, association or organization, and would like have Soil Foodweb Canada teach a course, please contact Matthew at: 403-485-6981 or info@soilfoodweb.ca

If you are looking for a microscope course, we are currently offering one-on-one four hour sessions with one of our lab technicians, for only \$200!!! Please contact Christine or William at 403-485-6981.
